Non-Degree Seeking HS and Community Programs Application

1. Go to https://slate.admissions.arizona.edu/register/NDSPrograms18

2. Fill out the bio and demographical data: Name, Address, Email Address, Telephone Numbers, Residency, and Biographical Information sections – all required fields are marked by a red asterisk. Please use your full, legal name (not nicknames) and complete mailing address. Also, please provide the best contact information for reaching you in case we have questions regarding your application.
3. Fill out Citizenship information. If you select “No” or “Other”, additional questions will appear.

4. Select your program and the term you will begin that program.

5. If you indicate that you are participating in multiple Non-Degree Seeking programs within the same semester, a list of other programs will appear. Only select those programs you will also be enrolled in during the same semester as your application. If you will be participating in additional programs in other semesters, another application will need to be submitted.
6. Provide your High School name and dates of attendance. Once you begin to enter your High School, a list will populate. Please select your school from this list. If it is not on the list shown, you can select “Continued” at the bottom. This will provide a comprehensive list of schools containing the key words you have entered. The CEEB code will auto populate if you select your school from the list.

7. Provide Contact Info for whomever you would like us to contact in case of emergency.

8. Click “submit.” If you do not click “submit”, your application will not be submitted and your progress will be lost. You only need to click this button once. Wait for the confirmation that the page has been submitted (an email will also be generated with confirmation of the submission). Please check the email provided on the form for any further updates.
